PROFESSIONAL SUMMARY

Senior Software Engineer with a Master's in CS and 5+ years of experience in **React, Node.js, Java, AWS, and SQL**. Proven track record of delivering scalable enterprise solutions, reducing manual effort by 500+ hours annually, and improving performance by 30%. Expert in distributed systems and Agile delivery.

TECHNICAL SKILLS

Languages: JS (ES6+), TypeScript, Java, Python, C#, SQL, Shell Scripting
Frontend: React.js, Redux, HTML5, CSS3, Bootstrap
Backend: Node.js, Spring Boot, J2EE, .NET, REST APIs, Microservices, Hibernate
Cloud/DevOps: AWS (EC2, S3, Lambda), Docker, Kubernetes, Jenkins, Git, CI/CD, SonarQube
Databases: SQL Server, MySQL, Oracle, PostgreSQL, MongoDB

PROFESSIONAL EXPERIENCE

Software Engineer | Maxima Group Inc. **Sep 2024 – Present**
USA

- Maintain enterprise full-stack apps using **React, Node.js, and SQL Server** for high-scale operations.
- Optimized SQL queries and backend processes, improving responsiveness and enabling **OLAP reporting**.
- Built a **CDN-based architecture** reducing load times by 30% and increasing digital revenue by 20%.
- Developed **Power BI dashboards**, saving 500+ man-hours annually with 95% accuracy improvement.

Software Engineer | Kivyo Inc. **Oct 2023 – Sep 2024**
Remote, USA

- Engineered **infrastructure automation tools** for production clusters, enhancing system stability.
- Accelerated release cycles via CI/CD pipelines; directed **SonarQube refactoring** to boost code quality by 20%.

Application Development Senior Analyst | Accenture **Oct 2019 – Dec 2021**
Chennai, India

- Consolidated 6 legacy apps into a unified **AWS/Node.js Big Data platform**, improving scalability.
- Automated research tools, reducing turnaround time from days to **under 60 minutes**.
- Reduced support tickets by 60% and increased digital engagement by 35.6% via bottleneck removal.

TECHNICAL PROJECTS

Sound for Assistive Communication: NLP-based "Mind Speller" for impaired users; reduced costs by 70%.

FlexiPay Disaster Recovery: Secure decentralized payment system; increased network coverage from 10% to 60%.

Video2Rhythm AI: ML pipeline generating synced soundtracks for motion videos with 89% accuracy.

EDUCATION

MS in Computer Science & Engineering, Texas A&M University – CC 2023
BE in Computer Science & Engineering, Anna University 2019

CERTIFICATIONS

- Azure Fundamentals (AZ-900)
- ASP.NET MVC (70-486)
- DevOps Solutions (AZ-400)
- Programming in C# (70-483)
