PROFESSIONAL SUMMARY

Results-driven **Senior Software Engineer** with a Master's in Computer Science and 5+ years of experience designing and delivering scalable full-stack, cloud-native, and enterprise applications. Expert in **React, Node.js, Java, AWS, and SQL**, with a proven track record of reducing manual effort by 500+ hours annually and improving performance by 30%. Strong expertise in distributed systems, platform modernization, and Agile delivery to drive measurable business impact.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, Java, Python, C#, SQL, Shell Scripting
Frontend:	React.js, Redux, HTML5, CSS3, Bootstrap
Backend:	Node.js, Spring Boot, J2EE, .NET, REST APIs, MVC, Microservices, Hibernate, Dapper
Cloud & DevOps:	AWS (EC2, S3, Lambda), Docker, Kubernetes, Jenkins, Ansible, Maven, Git, CI/CD, SonarQube
Databases:	SQL Server, MySQL, Oracle, PostgreSQL, MongoDB, SQLite
Tools:	Agile/Scrum, Jira, Postman, Linux, Power BI, RPA (UiPath), Data Mining, Visual Studio

PROFESSIONAL EXPERIENCE

Software Engineer | Maxima Group Inc. **Sep 2024 – Present**
Houston, TX / USA

- Develop and maintain enterprise full-stack applications using **React.js, Node.js, J2EE, and SQL Server**, supporting high-performance operational platforms.
- Optimize complex SQL queries and backend processes, improving application responsiveness and enabling **OLAP-based reporting**.
- Architected a **CDN-based web application** that reduced content load times by 30% and contributed to a 20% increase in digital revenue.
- Built **Power BI dashboards** using data mining, saving 500+ man-hours annually and improving reporting accuracy by 95%.
- Lead code reviews, unit testing, and technical documentation to ensure high-quality, maintainable software delivery.

Software Engineer | Kivyo Inc. **Oct 2023 – Sep 2024**
Remote, USA

- Engineered reusable **infrastructure automation tools** for distributed production clusters, improving system stability.
- Developed CI/CD pipelines and automated test suites, accelerating release cycles and improving deployment reliability.
- Directed **SonarQube-driven refactoring**, improving code quality by 20% and reducing application size by 30%.

Application Development Senior Analyst | Accenture **Oct 2019 – Dec 2021**
Chennai, India

- Led cross-functional teams to consolidate six legacy applications into a unified **Node.js and AWS-based big data platform**.
- Built automated competitor research tools, reducing turnaround time from several days to **under 60 minutes**.
- Reduced pending support tickets by 60% within two sprints through workflow optimization and rapid issue resolution.
- Shortened project execution time by 23% and increased digital engagement by 35.6% by removing technical bottlenecks.

TECHNICAL PROJECTS

Sound for Assistive Communication (NLP / ML) *Python, TensorFlow, Signal Processing*
Developed an NLP-based "Mind Speller" for impaired users, reducing costs by 70% compared to commercial solutions.

FlexiPay — Offline Disaster-Recovery Payment System *Android SDK, Java, Ad-hoc Networking*
Built a secure decentralized payment platform, increasing functional network coverage from 10% to 60%.

EDUCATION

Master of Science in Computer Science and Engineering, Texas A&M University – Corpus Christi Aug 2023
Bachelor of Engineering in Computer Science and Engineering, Anna University May 2019

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Designing and Implementing Microsoft DevOps Solutions (AZ-400)
- Developing ASP.NET MVC Web Applications (70-486)
- Programming in C# (70-483)
